TITLE : VINYL CHLORIDE RESIN PIPE

ABSTRACT : PROBLEM TO BE SOLVED: To provide a vinyl chloride resin pipe of which the weather resistance can be improved sharply by coating the outer periphery thereof with a specific resin composition.

SOLUTION: The vinyl chloride resin pipe 10 is formed of a pipe main body 11 constituted of a chlorinated vinyl chloride resin composition or a mixed resin composition of a chlorinate vinyl chloride resin and a vinyl chloride resin, and of an outer layer 12 of a thickness of 20-200 µm which is laminated on the outer periphery of the pipe main body and constituted of an acrylic vinyl chloride copolymer resin composition obtained by graft polymerization of an acrylic copolymer with a vinyl chloride monomer.
